

PROFESSIONAL EXPERIENCE

Software Engineer

BI Worldwide | February 2023 - Present

- Working on developing a product from scratch, building POCs to validate project feasibility and guide development decisions.
- Showcased expertise in Next.js and Tailwind CSS, accelerating front-end development and enhancing UI aesthetics. Utilized Zustand for state management, providing efficient and scalable front-end data management.
- Created interactive dashboard UIs and captivating landing pages to elevate user experience and retention.
- Implemented microservices architecture using Fastify and PostgreSQL for improved scalability and performance.
- Implemented multi-tenant architecture to support multiple clients on a single application, enhancing scalability and customization.
- Worked on developing various services, such as notification service, identity service etc. Designed and implemented a versatile flow engine to streamline complex business processes and workflows.
- Demonstrated proficiency in various AWS services such as SES (Simple Email Service), SQS (Simple Queue Service), and S3 (Simple Storage Service), optimizing cloud-based infrastructure.
- Solely developed a complex form-builder feature, highlighting my technical proficiency and initiative in enhancing platform functionality.

Experienced professional with 3 years experience in developing RESTful services and front-end components. Proven track record of innovation, project delivery, and adaptability. Seeking opportunities to contribute technical expertise and drive results within a dynamic team.

SKILLS

- Next.js (1 Year)
- Node.js (3 Years)
- MongoDB, PostgreSQL (3 Years)
- Tailwind CSS (1 Year)
- Fastify, Express (3 Years)
- Redux, Zustand (3 Years)
- Bootstrap (1 Year)
- Jest (1 Year)
- REST APIs (3 Years)
- HTML, CSS, Javascript (3 Years)

EDUCATION

IET, DAVV

BE, Electronics and Telecommunication (2016 -2020)

Software Engineer

Larsen & Toubro Infotech | October 2020 - January 2023

- Developed and maintained full-stack web applications using the MERN stack.
- Designed and implemented responsive user interfaces with React and Redux.
- Created RESTful APIs for data retrieval and storage using Node.js and Express.js.
- Integrated and managed MongoDB databases, ensuring data consistency and security.
- Worked closely with the UI/UX team to ensure a seamless user experience.
- Conducted code reviews and mentored junior developers, improving overall code quality.
- Actively participated in Agile/Scrum meetings, contributing to project planning and execution.
